Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) **30-40**, drawn to a method of carrying out an electrochemical reaction.

Group II, claim(s) **41-48**, drawn to a process for production of an organic compound.

Group III, claim(s) **49-57**, drawn to an organic compound salt.

Group IV, claim(s) **58**, drawn to a method of carrying out a substitution reaction.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The method of Group I does not require electrolyzing a solution containing an organic compound salt of the general formula A-X-Y in a solvent and at least one co-reactant under conditions sufficient to form a product of the organic compound salt with the co-solvent as required in Group II.

The organic compound salt corresponding to the formula $R_1R_2ZC-T-Q-X$ Y of Group III is not used in the method of Group I and the process of Group II.

The organic compound salt corresponding to the formula $R_1R_2ZC-T-Q-X$ Y of

Group III is not required to be used in a method of carrying out a substitution reaction as required in Group IV.

The method of Group IV is not an electrochemical reaction as in the method of Group I and is not an electrolysis method as in the method of Group II.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
